Jack AND the  
Bean ~~STALK~~  
STALK

Phsst, Phsst, A Jack you straight.

Bean stalk and is it green yeah and you know

you asking all these questions and only want two  
you better get it ~~now~~ right now cause its gone  
Be gone later. Okay Give me four. thats what  
I'm talkin Bout. buy this shit. Yeah the last time  
I had this Green shit I saw Giants and skit  
Giants what you talkin about. yeah you never  
eat no Bean stalk Before. Nah I dont get down  
Dont GET Down you'll loose your Crown and Its  
hard to get it Back you know what I'm saying  
I only sell I dont Do. Oh Okay you can sell  
It to me But you To good for it ha. Its funny  
yothink that you dont play a part in this But its  
cool I'm out.

man what that Beanhead talking Bout  
I will never eat no Bean stalk that shits for them  
other Peoples not me...

Now Jack had that thought in his head all  
day. wondering how the ~~the~~ Giants looked, acted,  
as and all But he put it all off thinking ~~its~~ Bean  
head talk

now Jack had Been selling Bean stalk all  
Day. he Ran into a old Friend that had the

magic Beans that suppose to Grow a super strain of Bean stalk. Jack Brought the magic Beans and ran home straight to his Room and put the Beans on his bed. went ~~to~~ to the Kitchen for a Glass of water and a sandwich, came back to his Room tripped the water went all over the Beans, as that happend the Beans disapared. Jack looked all night and could not find the Beans. he findy gave up and laid on his Bed, ~~all of a sudon~~ all of a sudon the Room started to shake soon the hole house was shaking. The house shot straight up and would not stop all the way past the clouds, the stars, into the darkness of space ~~unt~~ until there was a wall of water splash the sight was Butifful there were extra Big cars Big Rims and the Blast of music it was a party it was some one's Bieth day. But every thing is Big I mean Really Big. Jack went out To the Giants Party.

There was a loud call "Who Do you think you are" "this is my party and no Bean heads aloud." Jack said "I'm no Bean head I sell But I dont Do it." "Come to me and show me your Tong" cause Bean head Tong's are spotted with Green spots from use of Bean stalk. Okay you not a Bean head so what you Doing here. I wasted my Beans and this happend okay how many Beans you have. seven I was told plant one at a time, that I will have ~~red~~

made a lot of money. Okay so you sell it I never  
met no one from where you from who don't do Bean stalk  
~~the~~ well now you have my name I's Jack and I think  
I just lost a fortune so how do I get back home. Well  
you may not like the answer to that. what what is it  
you have to eat seven Bean stalks cause you lost  
seven to get here so seven you must eat and jump  
and land on your feet and every thing will go back  
to normal or you could stay here and start over  
your house is here already so Jack what you gone  
do may man there's got to be another way. There  
is but most people take that way the easy way. I'm not most  
people. Okay you have to complete the ~~four~~ four powers  
of life. Okay what are they. First is courage,  
second is the test of faith in something other than your  
self third is wisdom last but not least Risk.  
Okay all I have to do is complete the powers of  
life and I'll be back home so Jack ~~turned a~~  
Turned around every body was wondering what  
he was doing he made it to the edge of the  
cliff that his house was on and jumped off  
and landed in his bed in his house in his town  
with the ~~knowledge~~ knowledge of the Giants in the  
sky. in this way he displayed all of the powers  
of life courage to jump off a ledge faith that  
he was going to be safe. wisdom that there is all  
ways more than one way to get home. and the risks

of death if he was wrong about jumping  
But ever since that day Jack does not sell Bean  
stalk anymore. And went on for the rest of his life  
Trying to get as much ~~Bean~~ help as he could for Bean  
Heads as he could and lived happily ever after
